PROFESSIONAL OBJECTIVE

- Software Developer with 1+ year of experience at a financial services company, building BFFs with NestJS and TypeScript and mobile apps with Flutter. Seeking a Junior Developer role to keep contributing to scalable solutions and grow professionally.

SKILLS & LANGUAGES

- **Languages:** Portuguese (Native), English (Advanced, oral and written).
- **Technologies:** TypeScript, JavaScript, NestJS, Node.js, Express, Flutter, Dart, HTML, CSS, TailwindCSS, PostgreSQL, OracleDB, Python.
- **Tools:** Azure DevOps, Git, GitHub, Figma, Postman, VSCode.

EDUCATION

Systems Analysis and Development

2024 - Ongoing • Universidade do Vale do Rio dos Sinos

- Expected completion: 2nd semester of 2027

EXPERIENCE

Software Development Intern at Quero-Quero (QQTech)

Period: February/2025 – Present (1+ year)

- Built BFFs (Backend-For-Frontend) with NestJS and TypeScript, integrated with Oracle databases.
- Developed mobile features with Flutter (Android and iOS).
- Built an internal admin dashboard with Next.js, React, and Material UI (MUI), consuming data from Oracle databases.
- Maintained CI/CD pipelines in Azure DevOps.
- Built a chatbot with RAG (Retrieval-Augmented Generation) technology, front-end in HTML/Tailwind/JS and back-end in Node.js/Express, PostgreSQL, and Redis for caching.
- Collaborated in an agile team, delivering improvements that optimized customer response times.

PROJECTS

ChatBot RAG (FullStack Project)

Period: 02/25- 08/25

Technologies: HTML, TailwindCSS, JavaScript, Python, PostgreSQL, Node.js (Express).

Tools: Sequelize(ORM), Redis(cacheing) & Vite.

Project Link: <https://github.com/vsmarlon/chatbotRAG>

- Full CRUD with RESTful APIs connected to a PostgreSQL database.
- Dark mode and responsive layout for desktop and mobile using TailwindCSS.
- Secure login with bcrypt for password hashing stored in the DB, and an Admin panel for managing users, documents used for AI responses, and session management via cookies.
- LLMs used: llama-3-70b-8192 for response generation and intfloat/multilingual-e5-large for document embeddings.

FreeBay (Mobile App - Social Marketplace)

Technologies: Flutter (Riverpod), NestJS, Prisma, PostgreSQL, Redis, Socket.io.

Project Link: <https://github.com/vsmarlon/freebay>

- C2C marketplace with a social feed, profiles, real-time chat, and a dispute-resolution system.
- Escrow holds payments until delivery is confirmed, with automatic release or refund.
- Payments via PIX (AbacatePay) and payouts through PagBank; push notifications via Firebase (FCM).
